

Debugging JavaScript

テバッグが爆速

```
WS Document
    C localhost:63342/await/
script.js
   async function main() {
     const response = await fetch("mySvg.svg");
     const svgCode = await response.text();
      document
        .getElementById("container")
        .innerHTML
        = svgCode;
   main();
```

WebStormを使えば JavaScriptプログラミングが 爆速になりますよ!
